

Product Information

Hanks' Balanced Salts (1x), w/o Ca & Mg, w/o Phenol Red

Catalog no: GBHB02/02F

General Information

Hank's Balanced Salt Solution (HBSS) is employed in a number of cell culture applications, including 66cell washing, transferring cell or tissue samples, dilution of cell populations for counting, and reagent preparation. A balanced salt solution's major job is to keep the pH and osmotic balance in check while also giving cells the water and necessary inorganic ions they need to operate. Typically, transport medium or reagent preparation employ formulations including calcium and magnesium.
